

# SUCCESS

## THIS IS OUR PROPOSAL FOR YOUR BUSINESS

We will work with you to help you work smarter through continuous improvement concepts

### Coaching/Mentoring

We partner with you on your CI journey through interactive coaching/mentoring

### Kaizen Facilitation

Cross functional, hands on, problem solving event for revolutionary results

### Education

In person or e-learning for continuous improvement concepts for all levels of your organization

## Clients choose us!

We are leaders in the industry and chosen partners for small-medium sized businesses. Give us an opportunity to help you through game changing concepts, ideas and implementation!

## Kaizen Facilitation

It all begins with a measurable problem statement. Knowing what problem we are trying to solve, with measures, scope and goal(s).

We work with you to identify a cross functional team to work together to permanently solve the problem.

Depending on the issue at hand, we collaborate to schedule a one to multi-day kaizen event

The first portion of the event is focused on the creation of a current state value stream map. This physical map details how the process actually works today, time, effort, value add and waste.

The team brainstorms what functions, features, and changes they would like to make in an "ideal" state situation. This helps to spark their creativity and "thinking outside the box" mentality!

It is now time to map the future state. We focus on both short term and long term future state maps so we can quickly realize gains and have a strategy moving forward.

We conclude with action items, owners and due dates. We have scheduled follow up meetings with you at 30,60, and 90 days after the event concludes to ensure traction and completion of the action items.

## Coaching/Mentoring

Whether you are an individual in career transition, a leader of a team or a company investing in continuous improvement-finding success can be challenging!

Learning to Lean helps you navigate challenging spaces by focusing on the endless opportunities for continuous improvement.

People and companies who engage in our coaching and mentoring solutions maximize their ability to live and lead in an environment that is efficient, effective and motivated to add value for internal and external customers.

### **Katie Labedz, Founder and President**

I'm excited that we found each other! Learning to Lean is a result of my life's work and passion. With extensive experience in continuous improvement, Lean and Six Sigma, I enjoy helping individuals and teams on how to implement game changing concepts to make their work and life more efficient and add value to organizations.

Born and raised in the Midwest, I am a country girl through and through. I am a dog, cat, horse and donkey mom. I am an avid learner and reader. My husband and I love to spend time traveling, especially on our motorcycles.
